

Couplings and o-rings

To couple a Storz connection, the two opposing couplings are pressed together such that the hooks of each one are inserted into the slots in the flange of the other. Then they are rotated in opposite directions until they are tight, or latched engages.

Features

The Storz couplings create a water-tight connection between the internal packing gaskets. To uncouple them, the latches are released and the couplings are turned in the opposite directions from coupling, and then

separated when the hooks and slots are aligned.

Special wrenches are designed for assisting with Storz connectors.

Couplings and o-rings

Various sizes available

ORDER INFORMATION

Storz name	NOK	Male/Female thread	Unit Sales	Ordernr.
Storz connector with BSP thread, light metal with rubber seal				
D	31	0.75"	1	08112001
D	31	1.0"	1	08112002
C	66	2.0"	1	08112011
